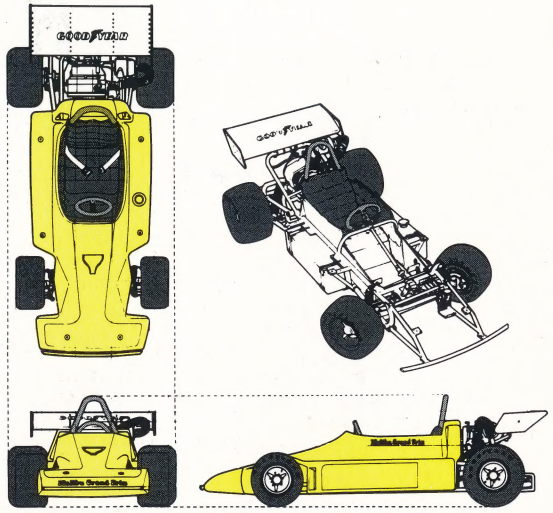
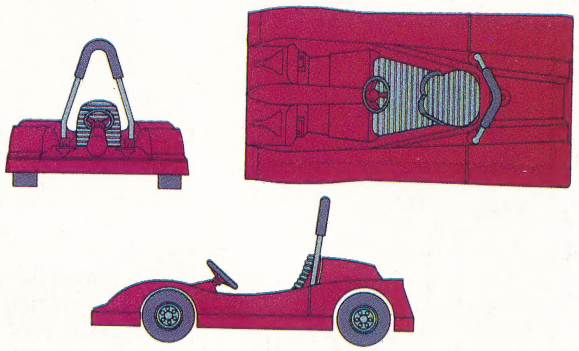
Virage®



The car that brought Grand Prix racing to millions is an authentic 7/10 scale open wheel racer. Any licensed driver can experience the sensations of driving a powerful, responsive single seat race car around a challenging road course. People are amazed at the realistic, yet safe experience of letting it all hang out in a Virage®.

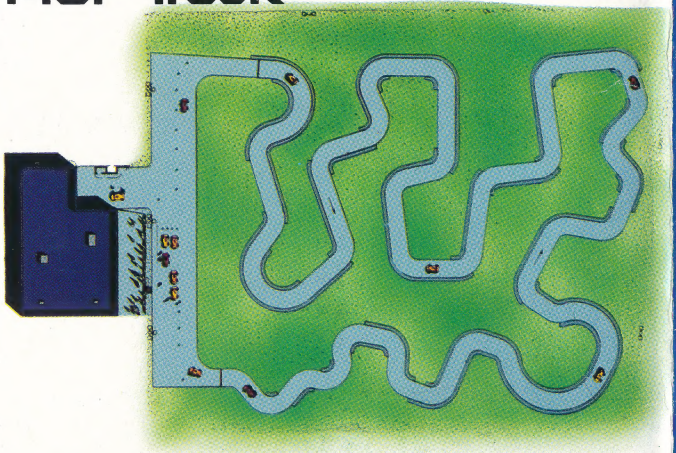
Take the test of time! Our computerized timing system displays your lap time to 1/100th of a second.

Road Runner™

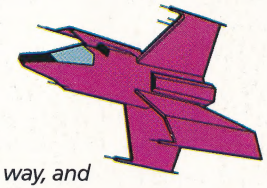


We invented this hot mini-racer to bring Grand Prix driving thrills to younger, unlicensed drivers. The safe and responsive car is quick and agile, and drivers learn to improve their lap time with every turn at the wheel. Its rear engine, fast ratio steering, and automatic transmission make it a cinch to drive.

MGP Track



We are proud to state that we've made speed merchants out of millions of "off the street" drivers; men and women who found it easy and fun to adapt to our responsive Virage® cars and challenging tracks.
Each MGP track is a different combination of straights and curves that will test the skills of any driver. You'll find yourself looking for that extra bit of finesse required to shave off that next 1/100th of a second.
Many of the biggest names in professional auto racing have driven on the very tracks you will tackle in the same Virages® they drove. You simply cannot find the safe, exhilarating thrills anywhere else.



Gameroom

The video business has come a long way, and we've got all the hot new ones. You'll go where you've never gone before on the new Laser Games, Hi-resolution Videos, and other exciting games that have 3-D, Stereo, and special effects right out of the Sci-Fi movies.

Restaurant

We know how hungry you can get while you're out there. It's hard work having fun in the cockpit of a Virage® racer or fighting Fuzzie Wuzzie Androids on the planet Mongo in our Gameroom. That's why we provide good food in record time in our Snack Bar. It's just the place for that important refueling Pit Stop. Enjoy plump, juicy Hot Dogs, hearty Sandwiches, all kinds of Munchies, and tasty treats and sweets to delight the taste buds of any pole sitting GP Driver or victorious space pilot just back from a deep space probe.
